WORK EXPERIENCE

Agami Technologies

Ui/Ux Designer

Greater Noida, Uttar Pradesh

Sep 2024 - Present

- Worked as the sole UI/UX Designer for multiple enterprise software products, owning the complete user interface design process from concept to production.
- Designed and maintained a large-scale Enterprise CRM & HRMS platform with 25+ business modules and hundreds of production-ready screens.
- Created scalable design systems and reusable UI components to maintain visual consistency across complex enterprise applications.
- Designed responsive user interfaces optimized for desktop, tablet, and mobile devices while ensuring accessibility and usability.
- Designed multiple application themes, including customizable branding options along with Light and Dark Mode experiences.
- Collaborated closely with Product Managers, Business Analysts, QA Engineers, and Frontend Developers throughout the complete product lifecycle.
- Converted business requirements into intuitive dashboards, workflows, reports, forms, and enterprise management interfaces.
- Performed Design QA to ensure pixel-perfect implementation before every production release.
- Worked with React and Vue.js development teams to ensure accurate implementation of UI designs.

Nxtlife Technologies

Web Designer

Gurugram (Gurgaon), Haryana

Jan 2024 - Sep 2024

- Designed responsive websites and landing pages based on client requirements.
- Converted Figma and PSD designs into pixel-perfect HTML and CSS interfaces.
- Worked on website redesign projects to improve usability and visual consistency.

- Developed reusable UI sections to speed up project delivery.
- Optimized websites for responsiveness and cross-browser compatibility.
- Collaborated with development teams to ensure accurate implementation.

EDUCATION

- BCA, Ravindranath Tagore University, Gwalior, MP - Pursuing
- Master of Web Designing Diploma, It Learning institute, Gwalior, MP
